

# Water Intelligence Solutions: Hospitality

Hotels use a lot of water – and are especially vulnerable to water damage. In a hotel a leak could mean shutting down a room, a wing or a whole floor. In a restaurant, a few days of unexpected shutdown could be the difference between profit and loss. Your patrons might leave and never come back. That’s lost revenue and bad publicity.

## The WINT Advantage

With WINT, guarding against water damage is easy and efficient – and it saves you money as soon as it is installed.

WINT delivers a state of the art solution using artificial intelligence and pattern recognition to monitor and detect leaks in real time.

With WINT, tackle these head-on through:

- **Have hotel staff alerted immediately** when a leak happens.
- **Automatically shut water off** when a leak is detected or alert staff who’ll investigate before shutting off water to minimize impact on guests
- **Support your environmental policies** and achieve your sustainability goals
- **Reduce water use** - and your bills - by 20%~28%.
- **Reduce the risk of expensive damage.**
